

SuperNaturals

Organic Vitamin C

Organic C Berry Power is a certified organic whole berry blend of 12 superfood berries (including seeds and juice) combined with 2 super berries (**Camu Camu and Acerola**) from the rainforests in Brazil. They have the highest level of naturally occurring vitamin C, 30 to 60 times more than citrus fruit. These berries contain natural phytochemicals – plant substances that can promote health and prevent chronic disease – including flavonoids, quercetin, anthocyanins, catechins, salicylic acid, phyto-estrogens, chlorogenic acid, ellagic acid and many others. The quality is maintained through cold liquid extraction and vacuum dried at low temperatures. This is a truly natural, organic product and no ascorbic acid is added.

30 to 60 times more Naturally Occurring Vitamin C than Citrus Fruits

100% SuperNatural
- Berry Power

The addition of these **12 super berries** are comprised of the purest, most comprehensive and potent berry blend powder in the industry. The deep rich colours of red, blue and purple colours provide a variety of benefits to different parts of the body – collectively providing the entire body with unsurpassed antioxidant and anti-aging health protection

Organic C Berry Power offers a full rainbow of the most beneficial phytochemicals and antioxidants to help the greatest amount of health-protecting properties possible. These berries are the superstars that research reveals can help protect against certain cancers, heart disease, memory and cognitive loss, certain infections, macular degeneration, inflammation and aging.

Berry Power offers all the goodness of fresh-picked organic berries and fruits in a convenient vegetable base capsule.
